SD-POS-VBM

POS multi VBM display mount

Fits displays 12" to 24"

The SD-POS-VBM mount is purpose-built for point of sale, payment terminals and self-service kiosks.

Concealed hardware, internal cable management and a configurable rotation limiter protect the display, the cabling and the customer screen view in one integrated mount.

75 x 75
100 x 100

8kg (17.6lb)
MAX LOAD

Retail POS mounting solutions

20° ball joint

Display adjustment of 20° in any direction from vertical, then locked in place.

Quick release

Fast display attachment and removal, secured by a built-in security feature.

Portrait to landscape

Rotate the screen between portrait and landscape orientation.

Designed in Australia

Built for continuous commercial use. 10 year limited warranty.

Configurable rotation

Lock pole rotation at 0°, 90°, 180°, 270° or 355° before installation to control the customer screen view.

Concealed hardware

All fasteners hidden inside the column, dramatically improving theft resistance.

Internal cable management

Cables routed through the column, with provision for a cable locking device.

Dual display option

Convert to a back-to-back dual screen setup with the SD-POS-VBM-B2B accessory.

10 year limited warranty

Configurations and accessories

Dual display option

The SD-POS-VBM-B2B accessory converts the single column into a back-to-back dual display configuration. Ideal where staff and customer-facing screens share the same counter.

SD-POS-VBM-B2B

Back-to-back dual display configuration. Sold separately.

Concealed hardware

All mounting fasteners hidden inside the column for theft resistance.

Internal cable routing

Cables routed through the column with cable locking provision.
